Information Letter

May 16th, 2019

Dear Sir or Madam,

Corning Optical Communications GmbH & Co. KG is an established and reputable manufacturer of telecommunications materials; including but not limited to Fiber Optic & Copper products as well as Hardware and Equipment accessories.

Corning Optical Communications LLC "COC" acquired 3M Communication Markets Division "CMD" in June 2018. The past several months has been a transitional period of manufacturing and system processes from 3M CMD to COC.

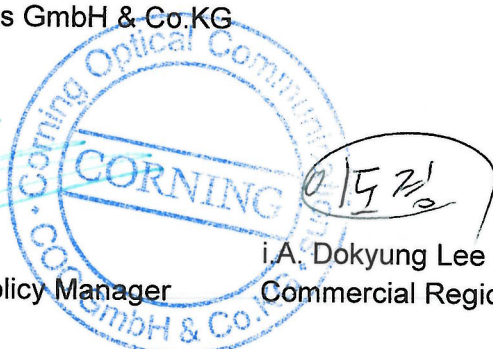

The acquisition extends Corning Optical Communications' market reach and access to global customers, particularly in key growth areas in Europe, the Middle East and Asia; the Central and Latin America regions; and the in-building network market segment. The acquisition also expands the optical solutions Corning can provide existing customers through CMD's high-bandwidth portfolio.

If you have any questions, please do not hesitate to contact me or Corning Sales Executive.

Corning Optical Communications GmbH & Co. KG
Best regards,

i.V. Andreas Wetzel
Commercial Price Strategy & Policy Manager
